

EXPEDITER

Shown With Options

The Expediter will be your top performing productivity partner – getting you where you’re going quickly and safely. Its narrow design, tight turning radius and best-in-class capacity rating enables you to transport personnel and payload through “tight spots” or right up to the job site. The standard fold down seat back converts the Expediter into a two-person transport, making it a versatile solution capable of pulling double duty at your facility. Available options allow us to match just the right Expediter to your specific requirements.

Productivity ideas of your own? Let us know, and we will draw on our 60-plus years of experience to help customize your very own Expediter!

- 1 Front Bumper
- 2 Steering Wheel
- 3 Tool Express Package
